

Cruise Along the Danube, the Iron Gates - Budapest - Vienna from Geneva

A legendary river, the Danube has seen the birth and fall of the greatest empires on its banks. This fascinating river, the cradle of European culture, crosses no fewer than 10 countries over nearly 3,000 km before flowing into a vast delta in the Black Sea. Sailing on its waters means following the course of a thousand-year-old history in the heart of central Europe, diving into the meanders of an epic where a cohort of peoples, influences, arts and cultures mingle. Music, architecture, painting, even the taste of the coffees and pastries that accompany them, the Danube has fertilized an incomparable art of living of which Vienna and Budapest, as imperial and royal cities, represent the finest examples. On board the M/S Amadeus Silver II, you will have a front row seat to this historic theater. A theatre of emotions too, when on the deck of the ship you admire the romantic lights of Budapest, when in the park of the Schönbrunn Palace you follow in the footsteps of the Empress, or when finally in Vukovar you touch with your finger the divisions that contemporary Europe experienced. Because the Danube is undoubtedly the most beautiful promenade in History.
