

North Cape, Lofoten Islands and Fjords Cruise

Embark on a spectacular cruise in the heart of Norway's jagged peaks. Your itinerary begins in Bergen, the country's prettiest city. It is home to magnificent, tightly packed, colorful houses that were once warehouses and remain a unique testimony to this Hanseatic capital. In Olden, you will enter a wild nature made of glaciers cut by large crevasses and lakes with turquoise waters. Then begins the fjord road and its incomparable landscapes: steep cliffs, waterfalls cascading down from the mountains, deep lakes and eternal snow. Up to the mythical North Cape, a rock rising 307 m above sea level and the northernmost point in Europe, Norway offers magnificent panoramas where unspoiled nature reveals its most beautiful jewels. From the red houses of the Lofoten Islands, to the majestic Geirangerfjord and Trollfjord, from the glaciers to the mountains covered with flowering meadows in June: this cruise will leave you speechless from the first to the last day!
